GGE Welcomes Mary Ann Furnish

General Graphics Exhibits (GGE), San Francisco, welcomes Mary Ann Furnish as Director of Business Development. Mary Ann, whose career spans almost two decades, entered the exhibit business while living in Chicago, but seven years ago, the snow drove her back to her native California.

“Mary Ann has a reputation that is unequalled in this industry,” said John Moyes, GGE principal. “She is energetic, innovative and probably one of the hardest working people I know. We’re thrilled to have her be part of our team.”

“GGE gives me a sense of family,” Mary Ann said. “It’s a unique company with an amazing story. I feel as if I’m home.”

GGE (www.gge.com) is a mid-size, value oriented company employing artisans and craftsmen, as well as designers and project managers. For over 40 years, GGE has served the convention, museum, and creative markets with unprecedented attention to detail and to customers’ needs.
